# Maintenance and Turnaround

ENGIE Fabricom has extensive experience in the execution of major turnaround events, single unit shutdowns and routine daily maintenance services.

## We provide a range of services including:

- Planning preparation of work packs
- Procurement - materials and subcontract services
- Sub-contract, engineering and safety management including CDM
- Provision of highly skilled engineering technicians (all disciplines)
- Replacement and refurbishment of plant assets
- Installation of equipment, pipework and structural steelwork
- Plant tie-ins, re-rates and testing
- Provision of commissioning services

Our aim is to be our clients' Partner of Choice
